Why is it important to recycle and compost?

IT'S GOOD FOR THE PLANET

- Recycling keeps materials out of the landfill, which saves energy and conserves resources.
- Composting improves our soils and reduces greenhouse gas emissions, which helps fight climate change.

IT'S THE LAW

To comply with local and state law, all Mountain View businesses are required to have composting and recycling programs. It is your responsibility to have:

- **Sufficient Service:** Have recycling and composting services with Recology and properly separate materials.
- **Annual Education:** Train employees, contractors, tenants, and customers by providing program information.
- **Compliant Containers:** Label and color-code indoor and outdoor containers for recycling (blue), compost (green), and trash (gray or black).

IT CAN SAVE YOU MONEY

- Recycling service is provided at **no additional charge**.
- Compost service is provided at a discounted rate (**25% off**) compared to trash.
