

PLEASE PLACE YOUR CARTS 2 FT. APART

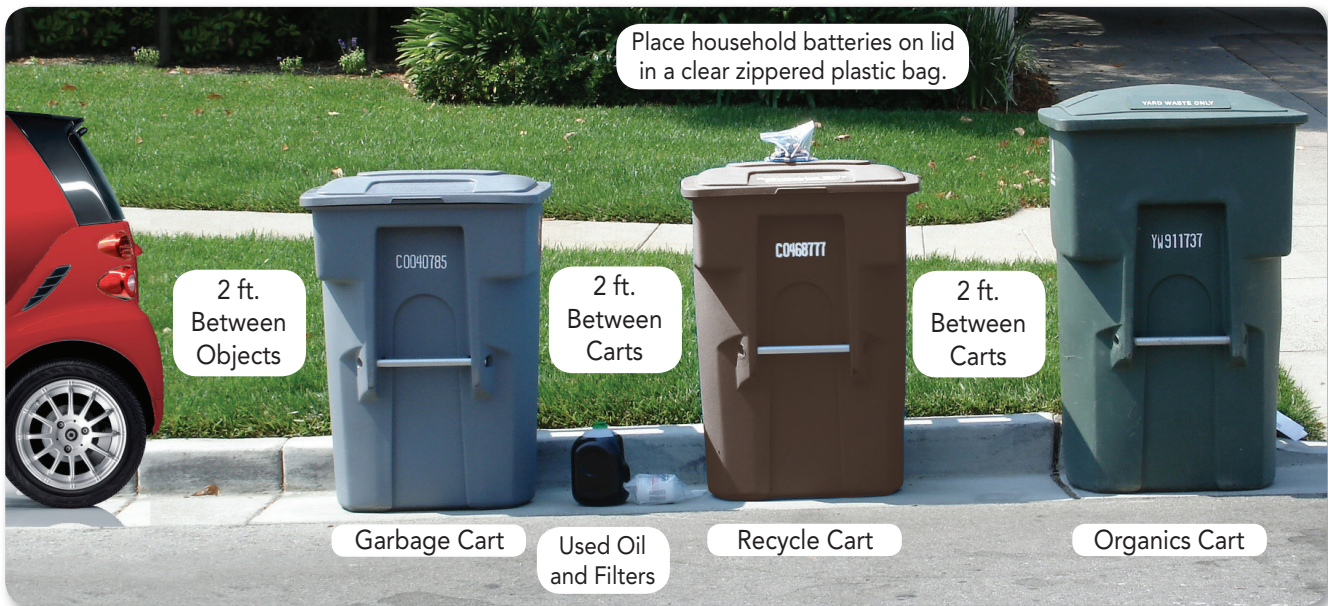

OBSTACLES: Place carts at least 2 ft. from obstacles such as basketball hoops and vehicles.

Your garbage, recycle, and organics carts are collected by an automated truck. This means a mechanical arm retrieves, empties, and sets the cart down in the street without the driver leaving the truck. This efficient collection system works best when all of the containers are at least 2 ft. apart.

THANK YOU! FOR MORE INFORMATION, CALL (408) 842-3358.
