

Weekly Mixed Food Waste and Yard Waste Collection Begins November 1st!

Effective November 1, 2023 food scraps and food-soiled paper must go into your green organics cart along with your yard waste. The green organics cart will now be serviced weekly along with your garbage cart. The blue mixed recycle cart will continue to be serviced every-other week.

All food scraps, including meat, bones, dairy, seafood, fruits, vegetables, breads and grains; food-soiled paper; and plant debris are no longer allowed in your grey garbage cart, they must go in your green organics cart now.

Remember, do not bag organic or recyclable material.

MANDATORY FOOD WASTE COLLECTION

All residents must comply with California's new organics recycling law, Senate Bill (SB) 1383. SB 1383 aims to reduce methane emissions by diverting organic waste from landfill by establishing statewide recycling requirements for cities and counties.

It requires all residents and businesses to divert organic materials (including: food scraps, plant trimmings, and unlined soiled paper products) from the landfill.

The City is required to monitor contamination and enforce the mandated requirements.

Avoid contamination fees by properly sorting your waste.

- Polystyrene, plastic wrap, and nonrecyclable packaging belong in your **GARBAGE** cart.
- Food scraps and food-soiled paper belong in your **ORGANICS** cart.
- Keep it clean! Make sure recyclable plastic, metal, and glass food containers are empty and dry before placing them in the **RECYCLE** cart.

SEE BACK OF NEWSLETTER FOR A HANDY SORTING GUIDE

PROPER SORTING

Residents are required under SB 1383 to subscribe to curbside composting and recycling collection service and sort materials into the correct containers. Make sure you your family know how to recycle and compost correctly. Visit www.CityofOroville.org, or email recycle@cityoforoville.org, for more information.

HOLIDAY TREE RECYCLING

Recycle your unflocked Christmas tree this year after removing all tinsel and ornaments. It will be mulched and composted, or may be used for fish habitat in our local lake! You have two easy options:

1. Curbside collection: If you're currently subscribed to yard trimming collection service, place tree(s), cut into 3 ft. or smaller sections and bundled, next to your container on your regular yard trimmings service day.

2. Drop-Off: Bring it to our facility located at 2720 South 5th Avenue in Oroville during transfer station hours, Monday-Friday 8am-4pm, Saturday 8:30am-4pm.
